Summary

Mechanical Engineering student at the University of Colorado Boulder with minors in Mathematics and Aerospace Engineering, currently interning at a contract manufacturer serving the medical device, robotics, and defense industries. Proficient in SolidWorks (CAD), Creo (Pro-E), Ansys (FEA), MATLAB, Excel, and 3D printing, with a strong foundation in prototyping, testing, and data-driven engineering. Focused on robotics, mechanical design, and autonomous systems.

Education

B.S Mechanical Engineering - ABET Accredited / Minor in Math / Minor in Aerospace 12/2027

3.6 GPA • University of Colorado at Boulder • Boulder, CO

United States Naval Academy - Accepted into the class of 2028

Mechanical Engineering / Minor in Math / Minor in Finance 05/2025

3.6 GPA • University of Massachusetts at Lowell • Lowell, MA

- Awards - Dean's List, Fall 2024 / Spring 2025 / Honors College
- Relevant courses - Materials Science for Eng. / Computer Aided Design / Manufacturing Laboratory / Thermodynamics / Calculus 1-3 / Differential Equations / Engineering Projects
- Clubs - Business Analytics Society / Engineers for a Sustainable World / Leaders in Action

Technical Skills

SolidWorks (CAD), Creo (Pro-E), Ansys Workbench (FEA), MATLAB, Excel, 3D Printing, Prototyping, Mechanical Design, Troubleshooting/Testing, Data Analysis, 5S Lean, Gemba Walk

Relevant Experience

GEEN 1400 - Engineering Projects 01/2026 - 05/2026

University of Colorado Boulder • Boulder CO

- Executed a multi-phase engineering design project starting with concept development, CAD modeling, fabrication and testing of working prototypes, integrating analysis to design improvements
- Collaborated with multiple teammates to validate designs through testing, documentation and final presentation at design Expo

603 Websites (websiteupgraderpro.com) — Co-Founder 01/2026 - Present

- Co-founded 603 Websites, a registered web design studio, and grew it to 3 retained clients generating \$900/month in recurring revenue
- Deliver fully custom, hand-coded sites built in React, Vite, and Tailwind CSS — no templates — with Framer Motion animations and mobile-first layouts
- Manage the full client lifecycle: sales, scoping, design, development, deployment, and ongoing site maintenance
- Deploy on Vercel for fast load times, delivering premium quality at rates well below agency pricing
- Run targeted Meta (Facebook & Instagram) ad campaigns for clients, using Claude AI to sharpen ad copy, audience targeting, and campaign performance

Professional Experience

Mechanical Engineering Intern 05/2026 - Present

Cirtronics Corporation • Milford NH

- Support mechanical engineers at an FDA- and ITAR-registered contract manufacturer serving the medical device, robotics, and defense industries
- Assist with electro-mechanical assembly and complex box-build projects, contributing to fixturing, assembly documentation, and design-for-manufacturability reviews
- Shadow senior engineers through new product introduction (NPI), gaining hands-on exposure to production processes, testing, and quality standards (ISO 9001/13485)

Sales Intern

06/2025 - 12/2025

ALKU • Andover MA

- Sourced and screened candidates for specialized engineering roles, supporting full-cycle recruiting in a fast-paced consulting environment
- Gained valuable communication skills by engaging with PhD engineers with 20+ years of experience helping to place them on highly competitive roles in their field

Maintenance Crew

04/2024 - 09/2024

Passaconaway Country Club • Litchfield, NH

- Maintained driving range and cart fleet operations while assisting customers at the register
